2020

Security Management Systems (SeMS)

 Classroom and In-house Course (5 days/40 hours)

Learn the essentials of IATA's SeMS initiative and how it can make your organization IOSA compliant. This course provides a structured approach to security process implementation in accordance with IATA Operational Safety Audit (IOSA) requirements. In daily classroom exercises, you will begin building a performance-based SeMS that produces measurable and auditable results.

Objectives

Upon completion of this course you will be able to:

- Understand the structure and components of the SeMS
- Plan an organizational structure in terms of security responsibilities
- Integrate SeMS procedures into your operations
- Build awareness and security-oriented culture throughout your organization

Target audience

This course is recommended for all staff with Avsec responsibilities, including:

- Experienced screening staff
- Civil aviation authority representatives
- Airline Managers
- Airport Managers
- Law Enforcement and other government personnel

Prerequisites

- There are no prerequisites for this course

Recommended level

- Entry-level
- Management

Key topics
